

What are cookies?

Cookies are small text files that are sent to and stored on your computer, smartphone or other device for accessing the internet, whenever you visit a website.

Cookies gather data such as your IP address, domain name and operating system. Cookies may also identify your device when you revisit our website. The information obtained is to ensure that our website is working efficiently and measures how our site is used. None of this data includes your personal information. We do not use cookies to collect information about individual user behaviour on our website.

How can you manage your cookies?

If you wish to disable the cookies on our website or any other website, you can do so through your browser settings.

You can find more information about this at www.aboutcookies.org
